**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. The preliminary amendment filed 1 March 2007 has been entered. Claims 1 – 28 have been canceled; claims 29 – 40 are new and subject to the restriction requirement below.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 29 – 35 and 38, drawn to methods comprising contacting cells with antibodies, and drawn to compositions comprising antibodies.

Group 2, claim(s) 36 – 37, drawn to methods comprising contacting cells with a peptide comprising at least an extracellular portion of a polypeptide.

Group 3, claim(s) 39, drawn to an antigen for producing an antibody.

Group 4, claim(s) 40, drawn to a probe or primer.

3. The inventions listed as Groups 1 – 4 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The first claimed technical feature is an antibody; Group 1 includes claims to the product and to the methods of using that product. Groups 2 – 4 are drawn to different products and methods with different technical features. The technical feature of Group 2 is an extracellular portion of a protein; the technical feature of Group 3 is an antigen, which can be of any part of the protein; the technical feature of Group 4 is nucleic acid. The technical feature of Group 1 is not present in any of the claims of Groups 2 – 4, and the technical features of Groups 2 – 4 are not present in the claims of Group 1. Thus unity of invention is lacking. Applicant is reminded that PCT Rule 13 does not allow for multiple products or methods in a single application.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be

Art Unit: 1649

traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DANIEL KOLKER whose telephone number is (571)272-3181. The examiner can normally be reached on Mon - Fri 8:30AM - 5:00PM.
